

WWW.SYCO.EU

"The Syco racing radios are the best I've had in over 20 years of motorsport It is as if the driver is next to you in the pit!"

- Anthony Kumpen

WORLD'S BEST RACING RADIOS UNLIMITED RANGE - UNCOMPARED AUDIO QUALITY 1 EU LICENCE - PRIVATE RADIO CHANNELS

RACING CATALOG

Unlimited Range

- Unlimited range within Europe. Radios cover thousands of km's
- Complete track coverage, tested & approved at The nurburgring Nordschleife, Spa-Francorchamps and other race tracks across Europe
- No repeater needed
- The team manager can listen/speak to multiple cars on different tracks from anywhere!

Impeccable sound quality with active engine-noise filtering

- Digital sound quality with active noise filtering
- Only voice, no engine sound

One licence for all of Europe

- No complex changes or extra costs per country
- 1 yearly fee for private communication, in all of Europe

Unlimited within the team

- Unlimited number of radios within 1 team
- You decide the speech plan. Who may talk, who needs to listen only?
- No interference from other teams
- Private and secure communication

Fixed or portable car radio

- Fixed car radio with 12V engine-interference filter power supply
- Portable radio for easy swapping between cars
- You decide, we have the accessories to connect both options

Remote programming over-the-air

 No need to send your radios in for modifications or use complex programming software yourself

Live-stream your team radio on social media

- Want to be able to share your team radio? SYCO-PTT enables this feature!

Re-listen to the last conversation

- You did not catch the lastest message? Listen again with a push of a button

Talk-priority for the race car

- The race car has priority, even when the pit crew is talking (can be programmed otherwise)

Kenwood compatible:

- 2-pin Kenwood accessory port for maximum compatibility with audio-accessories

GPS track & trace included in all radios

Real-time radio location on mobile and computer, on the track and on the road

Tested and perfected on European Race Tracks
